### SNLMSOC48V

#### Wired Monitor

INCLUDED IN 55GC & 105GC

A wired gauge display, connected via the CAN bus port directly to the BMS. IP54-rated, installs in around 5 minutes. Tracks capacity, voltage and current (no SOC or BMS fault data on the wired gauge). Also included is inbuilt Bluetooth monitoring.

## CHARGER & CABLE OPTIONS (Available individually or bundled with your battery)

The SNL48V55GC and SNL48V105GC come with Bluetooth and wired monitoring included as standard. All monitor, charger and cable options can be packaged together with your battery in a single order.

### SNLC48V18HD

#### Heavy Duty Charger

Purpose-built 48V, 18A charger for the Invicta Lithium Golf Cart range. IP67-rated with a LiFePO4 charge profile, mains lead and Anderson-style output connector included.

### SNLCADAPTER

#### Charging Cable Adapter

A custom charging cable matched to your golf cart model, connecting your Invicta Lithium charger straight to the cart — no adapters needed.
